# Privatizing Correctional Institutions

Edited by Gary W. Bowman,  
Simon Hakim & Paul Seidenstat

With a foreword by Warren Burger

## PRIVATIZING CORRECTIONAL INSTITUTIONS

Gary W. Bowman, Simon Hakim, and Paul Seidenstat, editors

With more than one million people behind bars, the United States imprisons a larger share of its population than any other industrialized nation. This has precipitated a serious overcrowding problem, with federal and state prisons currently operating well beyond capacity. With the American prison system in disarray, the public interest demands that government look beyond the public or private identity of those who wish to provide correctional services and focus instead on who can provide the best services at a given cost. This timely volume explores the issues of private versus public financing, construction, and management of medium- and high-security prisons.
